

2.9 BATHING

Policy:

Drowning is the major cause of accidental death for children aged one to four. Family day care educators will ensure every reasonable precaution is taken to protect children from harm and any hazard likely to cause injury.

Procedures:

1. A child being educated and cared for at a family day care residence or approved family day care venue must be supervised with a level of supervision appropriate to the age and stage of development of the child at all times whilst they are bathing.
2. The educator must be present in the bathroom at all times whilst under school age children are bathing or showering.
3. The privacy of school aged children must be respected, while maintaining a safe bathing/showering environment.
4. Before placing any child into the bath or shower an Educator must check the water temperature. Bath water should be 38°C or less.
5. Educators must ensure all control measures are in place for any bathroom hazards identified as part of the home risk assessment.
